

Virtual Urgent Care

Doctors can be hard to reach, illnesses can occur in the middle of the night, and sometimes you just have a question. Get on-demand care for your students when they need it with Opyn Live.

Access to licensed, and board-certified physicians 24 / 7 / 365 - Just a call, tap, or click away.

An exceptional benefit that reduces healthcare costs

With the rise in healthcare costs, more colleges and universities are turning to telehealth to reduce costs, help offset out-of-pocket expenses for students, and, importantly, assure that their students will always have care when they need it.

Multiple cost-savings

Healthcare cost-savings: Re-directing unnecessary doctor, urgent, and ER visits can reduce healthcare spending significantly.

Productivity: A typical doctor's appointment can take half of the school day. Opyn Live gives students easy access to a physician wherever and whenever they need it.

Flexible implementation: Opyn Live can be implemented into most student populations anytime of the year and be live in under 48 hours*.

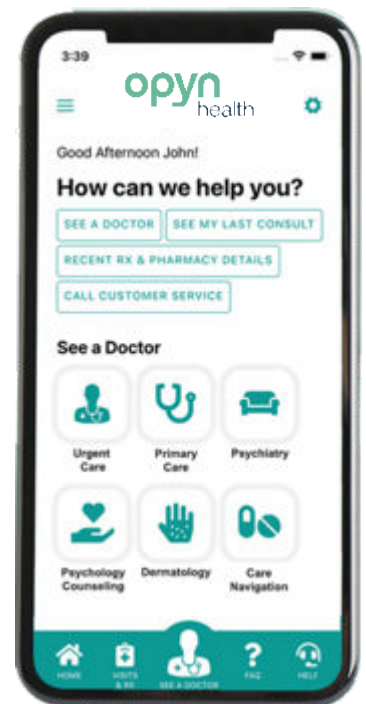

*For standard telehealth services. Additional functionality may increase implementation time.

Licensed healthcare providers provide clinical services through medical practices affiliated with Opyn Health and other network providers. Additional or different telehealth requirements may be applicable in certain states; see www.opynhealth.com for full terms and conditions.
